

WHAT IS CLAIMED IS:

1. A thermoplastic molding composition comprising
- (A) at least one aromatic polycarbonate and/or polyester carbonate,
- (B) at least one graft polymer,
- 5 (C) at least one oligophosphate of the general formula

in which the radicals

- 10 R^1, R^2, R^3 and R^4 independently of one another denote a member selected from the group consisting of C_1 to C_8 alkyl, C_5 to C_6 cycloalkyl, C_6 to C_{10} aryl and C_7 to C_{12} aralkyl,
 - n independently of one another is 0 or 1,
 - q independently of one another is 0, 1, 2, 3 or 4,
 - 15 Q is 0.5 to 30,
 - R^5 and R^6 independently of one another denote C_1 to C_4 alkyl or halogen, and
 - Y denotes a member selected from the group consisting of C_1 to C_7 alkylidene, C_1 to C_7 alkylene, C_5 to C_{12} cycloalkylene, C_5 to C_{12} cycloalkylidene, -O-, -S-, -SO-, -SO₂- and -CO-,
 - 20 (D) at least one anti-drip agent and
 - (E) at least one polyhydroxy ether.
2. The composition according to Claim 1, wherein (A) is contained in an amount of 5 to 98.9 wt.% referred to the composition.
 - 25 3. The composition according to Claim 1, wherein (A) is contained in an amount of 10 to 90 wt.% referred to the composition.

4. The composition according to Claim 1, wherein (A) is contained in an amount of 40 to 80 wt.% referred to the composition.

5. The composition according to Claim 1 wherein (B) is contained in an amount of 1 to 94.9 wt.% referred to the composition.

5 6. The composition according to Claim 1 wherein (B) is contained in an amount of 2 to 40 wt.% referred to the composition.

7. The composition according to Claim 1 wherein (B) is a graft polymer of 5 to 95 wt.% of at least one vinyl monomer on 95 to 5 wt.% of at least one graft base with a glass transition temperature of less than 10 about 10°C.

8. The composition according to Claim 7, wherein the graft base is a member selected from the group consisting of diene, EP(D)M, acrylate and silicone rubbers.

9. The composition according to Claim 7 wherein the graft polymer is at least one of emulsion ABS and bulk ABS.

10. The composition according to Claim 1 wherein (C) is contained in an amount of 0.01 to 40 wt.% referred to the composition.

11. The composition according to Claim 1 wherein (C) is contained in an amount of 1 to 25 wt.% referred to the composition.

20 12. The composition according to Claim 1 wherein (D) is contained in an amount of 0.01 to 5 wt.% referred to the composition.

13. The composition according to Claim 1 wherein (D) is contained in an amount of 0.01 to 2 wt.% referred to the composition.

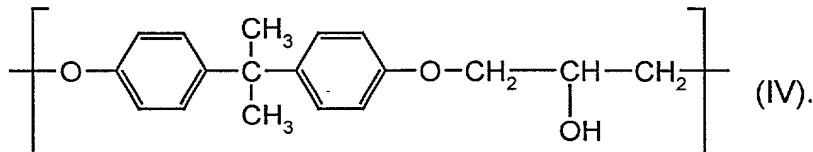

25 14. The composition according to Claim 1 wherein (D) is at least one member selected from the group consisting of polytetrafluoroethylene, polyvinylidene fluoride or tetrafluoroethylene/hexafluoropropylene copolymers and ethylene/tetrafluoroethylene copolymers.

30 15. The composition according to Claim 1 wherein (E) is contained in an amount of 0.01 to 10 wt.% referred to the composition.

16. The composition according to Claim 1 wherein (E) is contained in an amount of 0.05 to 5 wt.% referred to the composition.

17. The composition according to Claim 1 wherein (E) is contained in an amount of 0.1 to 3 wt.% referred to the composition.

5 18. The composition according to Claim 1 wherein the polyhydroxy ether contains a repeating unit of formula (IV)

19. The composition according to Claim 1 further containing (F)
10 at least one member selected from the group consisting of thermoplastic vinyl (co)polymer and polyalkylene terephthalate.

20. The composition according to Claim 1 further containing (G)
a particulate inorganic powder having a mean particle size of less than about 2000 nm .

15 21. The composition according to claim 20 wherein inorganic powder is a member selected from the group consisting of boehmite and talcum.

22. The composition according to Claim 1 further containing (H)
at least one additive selected from the group consisting of lubricants, mold
20 release agents, nucleating agents, antistatics, stabilizers, fillers, reinforcing agents, dyes and pigments.

23. A method of using the composition according to Claim 1 comprising molding an article.

24. The molded article prepared by the method of Claim 23.
